Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application contains claims 8 to 23 drawn to an invention nonelected with traverse in Paper No.8. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 to 5 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holton (US 5,175,315) in view of Greene et al.

Holton teaches a lactam derivative which is analogous to the claimed lactam; note the Abstract. The prior art R₂ group is a hydroxy protecting group such as ethoxy ethyl or acetyl; note lines 28 to 60 column 12 of the patent; while the current substituent is an alkoxy alkyl group (or a hydroxy protecting group). Greene et al teaches a variety of hydroxy protecting groups which include the prior art ethoxy ethyl and the current 1-methyl-1-methoxy ethyl; note items 29 and 31 in page 11 of the reference. It would be obvious to modify the lactam of Holton by replacing one hydroxy protecting group with another equivalent hydroxy protecting group as taught by Greene et al to form the current lactam for the same utility as an intermediate for making taxanes.

Applicant's remarks filed on 01/26/2004 have been considered but not found persuasive. It is obvious to an artisan to realize that one hydroxy protecting group would be somewhat different from another hydroxy protecting group in view of their reactivities in the chemical

reactions. It is a difference in degree but not in kind. Thus, a showing of an unobvious and/or unexpected results are needed to overcome the art rejection.

No claim is allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ba K. Trinh whose telephone number is (571) 272-0695. The examiner can normally be reached on Monday to Friday from 8:30 AM to 5:00 PM.
